Students receiving funding for ACT/SAT college entrance exams must provide the Director of Education with a copy of official results, immediately, once student has received the official results.

The funds will be issued in the name of the student to the proper facility.

There will be no duplication of monies for expenses between JOM and Education programs.

♦Tutoring Guidelines♦

The funds to pay for tutors are deducted from the Academic Program (K-12), which has a maximum of **\$300.00** allowable for each student per academic year, as funds are available.

For a tutor to be paid under the program the tutor must be a teacher certified in the area they will serve as a tutor or the tutor must be through a tutoring program sponsored by a University, College, public school or some other accepted organization.

The Education Department prefers students to not be tutored in their home or the home of the tutor, but rather in a school, library, or other appropriate facility. If this is not possible, please contact the Director of Education.

- The Director of Education must pre-approve pay rates for tutors.

Time sheets demonstrating the actual time utilized tutoring must be provided to the Education Department. Time sheets will be furnished by the Education Department; sheets can be sent to the parent/caregiver or picked up at the Education Department.

- Parent/Caregivers are to provide transportation to and from the tutoring if school transportation is not provided.

These guidelines provide a framework for establishing the tutoring program. If deemed necessary, the Director of Education will introduce additional guidelines and/or adjustments.

◆◆Athletic expenses Guidelines◆◆

- There will be no duplication of athletic monies between JOM and Education programs. These programs will not pay for the same expense, yet the student can access funds for various athletic programs (football, basketball, softball, track, etc.) during the school year.
- A copy of class schedule or note from athletic coach, athletic director, or school counselor stating student is in a school athletic program.
- The student must meet “academic eligibility” as determined by those standards set forth by the school district in which the student attends.
- The parent must forward a copy of the student’s grade report to the Education Department for the semester in which the student was funded for continued funding through the program.
- There is a maximum amount allowable for athletic expenses. The limit is **\$150.00** of the **\$300.00** allotted per academic year, as funds are available on a first come, first served basis.
