

PUBLIC NOTICE

Effective Beginning 13 March 2017

The Little Axe Health Center's West Clinic Facility Doors by Behavioral Health and Public Health will be permanently locked/secured due to Public Safety, Patient/Employee Security, and Fire Safety Accountability Measures.

Visitor control/accountability procedures will be in-effect as all personnel including Patients, Visitors, Vendors, Contractors, and all other public officials must enter through the front of the facility (the main South entrance to the Little Axe Clinic facing the patient parking lot and next to the Pharmacy Drive Through). The West entrance parking will only be for employee parking effective this date and no longer allowed for Patients, Visitors, Vendors, Contractors, or other officials to park. Violators will be reported to the governing authorities who choose to respond, and may either be Norman PD or Tribal PD, as available.

Thank you for your assistance and support.
