GOVERNOR'S REPORT

Greetings fellow Tribal members:

On April 28, 2011, I, and the other members of the Executive Committee received a letter from Ewell Longhorn stating his concerns about building permanent structures (a Casino) on Tribal Trust land (the Tribal Complex). This new Casino is being built pursuant to a resolution passed by the Executive Committee (E-AS-2007-40) authorizing The Development of a Tribal Casino on the Tribal Complex for the purpose of expansion of Gaming Activities. This resolution was passed unanimously, and yes, Mr. Longhorn did vote YES. Mr. Longhorn evidently thought this was a great idea, or he would have voted NO. Did he think the new Casino would be a temporary, or Mobile Casino? It only seems feasible that the facility would be permanent.

Mr. Longhorn's next concern was about the financing for the project. His concern was that TEC Inc. secured the \$4,250,000 loan with the Tribes gaming revenues. As any educated person is aware, when you apply for a loan, and especially one of this size, you **MUST SHOW THE ABILITY TO REPAY THE LOAN.**

This is done by securing the loan with collateral. Tribal property and permanent assets cannot be used as collateral, therefore the only collateral available are liquid assets (cash flow, and revenue). The only other alternative is to remain stagnate, do not try to expand, do not try to move forward and provide better services to Tribal members. As our Tribe grows in numbers, our cash flow must grow also, or services to Tribal members must be reduced.

Mr. Longhorn's next concern is whether TEC was authorized to enter into a loan agreement with Mass Development to finance the new Casino. Executive Resolution E-AS- 2010-77 does give TEC Inc. the authorization to construct a new Gaming Facility on the Tribal Complex per Mr. Longhorn's resolution E-AS-2007-40, and to initiate an agreement for financing the project. The Executive Committee passed this resolution with the expectation that TEC Inc. would keep them advised of progress reports of these negotiations, and as Shareholders Representatives, their opinions would at least be considered. TEC Inc. did not keep the Executive Committee informed in any way as to the progress of the financing process, and although members of the Executive

Committee repeatedly asked for updates and details of the project, absolutely NO INFORMATION was forth coming from TEC Inc. or the Managers of Gaming operations. The Executive Committee was repeatedly told that plans, architectural designs, permits, loan documents, etc. were still in the process of being drawn up. The Executive Committee was not advised that a loan agreement was finalized by TEC Inc. and Mass Development until work was already underway on the project. Although Secretary Michelle Lopez is a member of the TEC Inc. board of directors, the Executive Committee was not aware that the financing was finalized until TEC Inc. had already made substantial advances on the financing, and the project was well under way. Although the loan agreement was signed and finalized on September 30, 2010, and several attempts were made to acquire details from TEC Inc., and Alyssa Campbell of L.A.I.C. LLP, I was not able to receive these documents until March of 2011.

It is my opinion that TEC Inc. under the guidance of Alyssa Campbell did intentionally misrepresent and withhold vital information from the Shareholders and Shareholders Representatives. After reading the loan

documents, it is my opinion that the reason for such secrecy pertaining to the loan documents is that if the Executive Committee was informed of all the details of this agreement, a directive would have been made requiring further negotiations prior to finalization of the agreement. Although it was not, in my opinion, illegal for TEC Inc. and Ms. Campbell to operate in this manner, it WAS highly unethical and disrespectful on their part. I do not believe TEC Inc., and all associated with the board of directors of TEC Inc. functioned in the best interest of the Tribe, and steps will be taken to remove them if at all possible.

Mr. Longhorn expressed concern that no Executive resolution exists that authorizes the creation of TEC Inc. That is correct, TEC Inc. was formed under the Absentee Shawnee Corporation Ordinance, and according to the AST Attorney General's office no resolution is required to form a Tribal Corporation.

Mr. Longhorn's next concern is the debt incurred by Li-Si-Wi-Nwi Health Inc. Mr. Longhorn's first concern is that the Tribe waived its Sovereign Immunity while absolutely and unconditionally guarantying to make all payments due on the \$26 Million loan. This was a limited waiver of Sovereign Immunity pertaining to the Medical Equipment and Clinic assets purchased with the loan monies for the JOINT VENTURE CLINIC only. As Mr. Longhorn must be aware, since he is by his own admission well schooled in the banking business, this is a standard procedure in business loans of this nature. These assets are not legally Tribal or Corporate assets until the loan is paid in full. (This is just like buying your home, it is not 100 percent yours until the mortgage is paid in full). Even then, the lender is restricted to placing a lien on the assets, not repossessing them.

Since IHS Compact funds, gaming revenues, gaming assets, and trust assets are excluded, it is unclear to me which significant Tribal assets are at risk with this loan. Mr. Longhorn didn't explain this, so maybe he is unclear also, or, maybe there are no significant assets at risk.

This loan did not mortgage, encumber, or endanger any existing tribal properties, holdings, or assets, therefore Mr. Longhorn's accusation the Article V of the Tribal Constitution was violated are not only misleading to Tribal members, but untrue as well.

Respectfully,

George Blanchard

LT. GOVERNOR'S REPORT

Greetings Fellow Tribal Members,

First, I want to apologize to all the departments who might of submitted articles or time sensitive information in last month's newsletter. It was I who held up the print and distribution date of the newsletter due to the fact that I wanted to include the decision that was made by Judge Reeh, Interior Department Probate Judge, in the case between the Absentee Shawnee Tribe and the Potawatomi Tribe. This decision, which was in our favor, was a decisive definition of our tribal sovereignty as to governing our AST trust allotments. Through the efforts of staff, direction of the Executive Members and the support of the tribal members at court, were we able to be victorious in this case. I felt that this information needed to be made available to our tribal members as soon as possible, therefore, that was the reason for the delay of last month's newsletter.

Secondly, the date for the run-of election will soon be upon us. With that, I encourage each eligible voter of our tribe to exercise their voting privileges.

As the weather has gotten nicer over the past few weeks, we have increased our outside projects and are making every attempt to show progress for all to see and be proud of. The grass cutting has started, renovations at Brendle Corner will be starting soon, a Peebly Road project is in the process, and we are negotiating a road project in the Johnson Community along with a few other projects. These are just some of the things our office is trying to accomplish during the upcoming months. As we begin and make progress, better details will be given as to keep the tribal members informed.

As the weather warms construction will start and we will be very busy. The priorities are (1). AST Complex – Casino; (2). Newalla, Lindsey (Brendle Corner); (3). Kings Road – this will be a joint effort between the Tribe and Potawatomie County; (4). Peebly – this will be a joint effort between the Tribe and Cleveland County.

I would like to take this opportunity to wish Michelle Lopez a fond farewell and say what an experience it was to work with her as fellow Executive Committee members. I appreciated the fact that we were able to work together for the betterment of our tribe. I wish her good luck in her future.

For any questions or concerns, don't hesitate to contact my office. Either I or someone from my staff will be glad to assist you.

Thank you for your continued support and encouragement.

/s/
Isaac Gibson, Jr.
Lieutenant Governor

SECRETARY'S REPORT

Hello Tribal members, I would like to start off by saying this has been a long journey for me. I started out as a house keeper and moved to the finance department as Reception/file clerk, Accounts Payable assistant and then on to the Secretary's office as Enrollment clerk/ Clothing and Burial Specialist. It was then that I decided to run for office of Secretary and with much surprise I won. That's when I realized it's harder than people think. All the problems you have to deal with and the unkind comments that tribal members give you, really make it hard to feel that you have done any good for the tribe and its members. I did my best in the position of Secretary for the four years I was in office but to no prevail did I get what I wanted done before I left office. I tried the whole four years in office to get the roles cleaned up and was unsuccessful due to the EC not wanting to change any ones blood quantum due to the fact that someone was kin to them or they were afraid that they wouldn't receive any votes on the next election. It's very difficult to get someone's blood quantum changed if they are related to an EC member. So with the EC members refusing to correct the blood quantum's it was very hard to uphold my constitutional duties. I feel like if you were elected to do a job then no matter if your kin to that person or not it's up to you to do that job.

I was elected to do a job and that is what I have tried to do in my terms in office and I apologize for not getting anything done to the roles. It will be up to the next Secretary and good luck with that. I would however like

to thank the Enrollment staff for all of their hard work and for following the rules even though they were not able to do their jobs either. They still did what they were supposed to do according to the Enrollment ordinance. I appreciate it and hope that one day you will be able to do your jobs to get the roles cleaned up.

My assistant Jerry Ann Knox for serving our tribe for Thirteen years doing the Meetings and all the Minutes, she has been very dedicated to her job and has done an excellent job for the tribe.

I would like to mention a thank you to the Attorneys that have worked for the tribe. I for one know it's hard to please all of the members and EC at the same time. I really appreciate your hard work and would like to show all tribal members a list of accomplishment's that your firm has done for this tribe and just maybe the tribal members will be more appreciative to you and your firm. Following my news letter will be a list of accomplishments that the current AG's office has brought to this tribe.

I would like to mention that in the eleven and half years here at the tribe I have come to know many co-workers and friends. I would like to thank all of my co-workers for giving their all for our tribe and supporting me in all that I have accomplished.

I feel good about what I have been able to do in these years of serving the tribe and its members. I have helped a lot of people and have helped get some new Economic Development started. So all is not lost in the terms I have been in office. I would like to wish the tribe and its member's great prosperity and good luck with all endeavors.

Secretary Michelle Armstrong-Lopez

FINANCE DEPARTMENT

The Finance office continues our efforts in keeping the day to day activities flowing efficiently and effectively through communication between the Finance office and Programs. In working together, we have found the most time effective and cost effective processes for transacting business.

Our 2010 Audit is at the final stages of completion. It began February 28, 2011. The estimated completion date is April 2011 or mid May 2011 and will include the MD&A (Management Discussion and Analysis). The MD&A report is an informative report within the 2010 Audit; which is a brief review and explanation of the Audit. The Finance staff is working on the April reconciliations for financial reporting. The Audit should be an "unqualified" audit; which when compared to an educational grading scale would be an A; but this we will not be known until the audit is complete.

The Indirect Cost Proposal for 2012 will be prepared as soon as the 2010 audit is complete. Our rate is up from 17.74% for 2010 to 21.98% for 2011. The finance department continues to

complete accounting by the seventh day of the month and have been since August 2010; so that financial reports can be created for the Health Authority and Li Si Wi Nwi, Health Inc. boards for health programs both Shawnee and Little Axe.

It is imperative the accounting / bookkeeping continue to stay ahead of all of the accounting so that audits go smoothly so that Indirect Cost rates will stay up to date as well. Indirect cost proposals cannot be submitted without completed audits as the audits are used to calculate the proposal.

There are many processes in place in your Tribe's accounting department that ensure we keep accurate records of transactions. The Tribe's accounting processes must be in compliance with GAAP (Generally Accepted Accounting Principles) and GASB (Governmental Accounting Standards Board).

The Tribe currently has compact funds of BIA and I H S, 51 Grants, and the new Clinic business.

The AST Finance department recently took on the ASED A accounting for the ASED A board of directors and will be handling the accounting going forward including the ASED A Fleet, the newest business endeavor for the ASED A board; it is an honor and pleasure to handle this duty for you (the Tribal Membership), AST Tribal Executive Committee, and the ASED A board.

The Absentee Shawnee Tribe's Finance Department has very hard working group of people and it is an honor to work with them, the Treasurer's office and at the Absentee Shawnee Tribe.

This department, as always, would like to extend a special thanks and note of appreciation to the Executive

Committee for providing the tools, resources and support to enable the finance staff to reach its accomplished goals and to continue with this effort. A special thanks and note of appreciation to Program Managers and Employees of the Tribe for their assistance and dedication in our group effort toward accomplishing our goal. Now that we are caught up, we are dedicated to continue our efforts in this direction.

If you have any questions or needs, please call 405-275-4030 ext 162 and I will be glad to assist you in any way I can.

Respectfully,
Belinda Collins, Controller

TRIBAL EMPLOYMENT
RIGHTS OFFICE

The AST TERO has been very busy, especially in the last 2-3 weeks. The wildfires that ravaged central Oklahoma 6 weeks ago, burned down the Harrah smokeshop. AST TERO working with Belfor and AST maintenance provided the workforce to clean up the burn site. This was a good example of the Tribe utilizing their workforce, tribal programs and departments working together for the betterment of the tribe and its people.

AST TERO is still working with Nabholz, the construction managers, and its subcontractors in getting tribal people on these work crews at the building of the new Little Axe clinic. And AST TERO is working with J.L. Walker Construction for the construction of the new 14,000 sq ft casino in front of the Tribal campus.

AST TERO has been busy meeting with all contractors and subcontractors connected with both of these projects. Contractors come into the AST TERO office, meet with TERO director and the work crews are negotiated, using the AST workforce.

Again it is important that everyone, Indian and non-Indian, come into the TERO office and get signed. AST TERO is looking for all trades skilled and unskilled.

THUNDER MEDICAL'S COLLABORATIVE PLATFORM IMPROVES HEALTHCARE SERVICES IN UNDERSERVED AMERICA

Financially sustainable health care for rural America has escalated into an epic-level challenge. According to Indian Health Services (IHS), compared to urban dwellers, tribes face 750 percent more tuberculosis-related deaths, 550 percent higher incidents of alcoholism, and 90 percent more diabetes. Rural (non-Tribal) regions, home for more than 20 percent of America's population (about 6.14 million people), do not fare much better. Nearly 50 percent of rural residents have at least one major chronic illness and suffer from more traumatic injuries that result in higher risks of death than urban market populations.

A team of best-in-class specialists launched Thunder Medical, LLC, to enable these underserved communities to access and develop financially sustainable healthcare. The company's proprietary approach applies a six-part strategy platform (see graphic) to reduce facility construction 28%, increase collections 20%, optimize buying power for medical supplies and improve profitability by as much as 35%.

Thunder is a Native American-owned, Oklahoma-based company. The firm serves as a single source healthcare performance-improvement resource for remote market clinics and hospitals. One call connects its customers with best-in-class providers who share Thunder Medical's commitment to address the *unique* medical service needs of rural markets to ensure sustained financial feasibility. More details about the firm can be found at www.thundermedical.com or by contacting their office at 214-789-7045.

TERI REED (TERESA WHITE) FOR SECRETARY

Fellow Tribal Members:

My name is Teri Reed (Teresa White). I hope that you will allow me to serve you as your next tribal Secretary. I feel that I am qualified for this position and that I can be an advocate for some positive changes for our tribe.

Since announcing my candidacy for this position, I've been pleased that some tribal members have contacted me to ask questions, to let me know about their concerns, or to voice their support of my candidacy. I've met some new friends and renewed some old acquaintances. I appreciate the input that I have received and I plan to continue to seek out opinions that will help shape my insight to the problems and concerns of tribal members.

The question I get most often is about providing jobs for tribal members. This is an important issue and I am all for making AST jobs available to tribal members on a priority basis. I like what we're doing with T.E.R.O. I believe in providing adequate training /retraining to AST employees as necessary. I do not believe that tribal members should be retained in those positions if their job performance is below satisfactory levels. I do not believe that the Executive Committee should provide specific job related information about any individuals' job performance to anyone else (inside or outside of the tribe) unless we have authorization from that

person. I feel like we should be more active in helping tribal members attain non-AST jobs through partnerships with private corporations or with other tribes. If elected, I would like to help with this type of initiative, even though this might be outside of the responsibilities of the Secretary's office.

IMPORTANT ISSUES

As an elected official of our tribe, I want to focus on:

Improving the financial health and future well being of our tribe so that all tribal members benefit, regardless of where they reside

Strengthen and improve our services to the elders

Seek out and provide work opportunities for those who can/want to work

Provide more educational incentives for our youth, our future leaders

BUSINESS EXPERIENCE

I have an extensive background in the business and corporate world. I was an executive for Southwestern Bell Telephone Company for 27 years. During that time I held a lot of different jobs.

Business Office Area Manager – Supervised a workforce of over 90 employees including 6 managers

Certified Trainer and Instructor – Traveled all over the state training employees on statistical data analysis, team building, leadership skills and problem solving

Corporate Trouble Shooter and Consultant – Lead work teams all over the country who were working on multi-million dollar projects. It was my job to come in and analyze their data, determine their problems, and get them organized to make significant changes

President/Vice President Chamber of Commerce - Noble Chamber of Commerce and Little Axe Chamber of Commerce

ASEDA Chairman of the Board –

Worked with Executive Committee 2007-2008

Real Estate Broker/Consultant – Currently independent real estate broker consultant with Metro Brokers of Oklahoma

My goal as your elected Secretary is to effectively and efficiently manage and grow revenue opportunities for the AST and the casino operations, while taking advantage of as many grant opportunities as possible. I feel my business and statistical analysis background will be an asset in helping to guide tribal endeavors. My past work history provides a strong foundation of business experience that can be used to benefit the tribe.

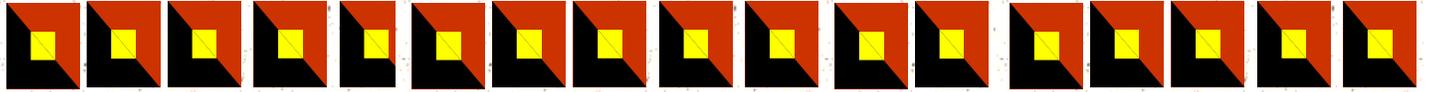

From my work experiences, I've learned that a diverse group of people working together can bring far greater rewards than anything one person can accomplish alone. I believe that for the Executive Committee to be its' most effective, you need the following:

1. Diverse group of individuals, both male and female, with differing opinions
2. People who are fair and honest
3. Willing to work as a team
4. Level headed and logical thinking (Common Sense Approach)
5. Experienced in business because they will need to be able to make responsible business decisions and be able to represent the tribe in business dealings

I believe I can make a positive contribution in each of these areas and I hope that you will vote for me on June 18th.

Respectfully,
Teri Reed – Candidate for Secretary

AST VETERANS ASSOCIATION

The AST Veterans Association held their monthly meeting at Thunderbird Casino on Wednesday, April 13th.

Among the subjects talked about were: The Tribal color guards participation in:

- General Council meeting on Saturday, April 16th, where they will post the colors to start the meeting
- The posting and retiring of the colors at the Tecumseh High School Native American Club Pow Wow. The event will be held at THS Football Field [901 North 13th Street, Tecumseh, OK] on Saturday, April 23rd.
- The Grand Re-opening of Horseshoe Bend, in Johnson Community, north of Shawnee. The CG will raise the flags before the ceremony, in front of the facility. The guard will also post the colors and retire the colors to begin and end the event.
- The group will also participate in the upcoming the annual Red Earth Parade on Friday, June 3rd which will take place near Bricktown in Downtown Oklahoma City.
- The 1st City of Norman Veteran's Day parade on Friday, November 11th.

New vests were issued to members of the color guard. The new vests display a new take on the Tribal emblem, designed specifically for the veterans group by Tribal member Darrell Larney. Association members unanimously voted to keep the emblem, on the back of the vests, plain with no alterations allowed.

The next Veterans meeting will be on Wednesday, May 13th, at Thunderbird. The meeting will begin at 7PM with a pot-luck dinner to follow.

The Tribal Veterans Association meets on the 2nd Wednesday of every month at Thunderbird Casino, 15700 E. Highway 9, Norman, OK. If you would like more information about the Tribal Veterans Association or to schedule the color guard -for an event or a Military Funeral Honor- call John Vanderburg, Administrations Officer, at (405) 481-3822.

Update:

The April 23rd Tecumseh High School Native American Club Pow Wow was held at the Tecumseh Basketball Arena because of heavy rain and thunderstorms. The Color Guard posted and retired the flags while sporting their new green vests.

The Pow Wow Committee presented the Color Guard with two grocery baskets, a Pendleton blanket, a shawl and a case of water.

In attendance, at the pow wow, was a woman by the name of Eugenia Lena and her 3 children. The family had recently lost their home due to a fire. Pow wow officials honored them with a blanket dance- to encourage people to help out the four. Members of the color guard, contributing donations and donating the two grocery baskets they had received earlier that night.

May's Tribal Veterans meeting was called to order, by Commander Walter Larney at approximately 1905 hours. The Pledge and Creed were led by First Sergeant David Little and the invocation by Chaplain Don Schulenberg.

Ewell Longhorn, thanked the group, on behalf of the White Turkey Band, for the Color Guard raising the colors, posting the colors and retiring the colors at the Grand re-opening of

Horseshoe Bend.

New Business:

- The group decided a special khaki pant would be added to the color guard uniform, as opposed to the original idea of wearing the dress blue pants.
- The association has decided to use funds accumulated from the "coffee can" account to purchase a new, much needed laptop computer.
- June's meeting will be the final opportunity for veterans interested in becoming "Charter" members of the Tribe's upcoming American Legion post. Other veterans may join after June's deadline but will not hold the status of Charter members.

Old Business:

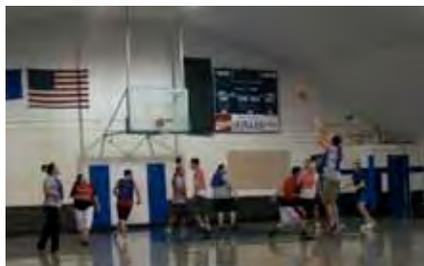

- The group is still searching for name for the upcoming Tribal American Legion Post. The name must be that of a deceased veteran who fought in a major war and was highly decorated.
- The Tribal Veterans Association will participate in the upcoming Red Earth Parade on Friday, June 3rd, in Downtown Oklahoma City. The parade will begin at 10AM.

The next AST Veterans Association meeting will be held on Wednesday, June 8th at Thunderbird Casino. The meeting is scheduled to begin at 7PM.

**Diabetes & Wellness /
REACH U. S.
Health & Prevention Programs
In Honor of Employee Health & Fitness Month**

Although most people are aware that exercise is good for your health, for many people the most strenuous exercise they get is climbing a flight of stairs at the end of the day. The list of excuses people give for not exercising is seemingly endless. They say they are not athletically inclined, that work takes up all their time, they're too tired, overweight or out of condition. In fact though, exercise is accessible to everyone, and it doesn't need to take much time. Just keep moving in any way throughout the day. Here is just a reminder what exercise can do for you and your health. Regular Exercise can benefit your health in so many ways besides losing unwanted pounds, it also helps strengthen your muscles, bones, and increase endurance that can help you reduce the risk of injury and illness. Exercise also helps your lungs take in more oxygen, lowers heart rate, cholesterol, blood pressure which reduces risk of heart attacks, strokes, and it can help prevent or help manage type I & II Diabetes. Exercise can also help improve your self esteem, skin, digestive system, circulation and reduce risk of hardening of the arteries. Exercise reduces stress and also helps your quality of sleep. These reasons alone should be enough to start wanting to put yourself first and start making small steps towards being a better you with a better life. The Diabetes and REACH US Programs had several events at both wellness facilities in April focused on physical activity which included an Easter Hop walk, completed the employee 5 on 5 basketball challenge and sponsored two teams in the OI DC golf scramble.

Is Your Diabetes Care Up To Date?

Diabetes & Wellness Program Booth during General Council focused on "Are you up to Date on Your Diabetes Care" Tara Conway, MS, RD/LD, CDE and Chrissy Wiens educated all persons who came by about the importance of receiving your annual screenings, knowing your numbers and the importance of nutrition and physical activity for good diabetes control. The Diabetes Program has implemented case management services to help persons diagnosed with diabetes get the care they need. **ARE YOU UP-TO-DATE ON YOUR DIABETES CARE?** Please call 405-878-4702 or 405-360-0698 to schedule an appointment. Top Summer Safety Tips

By [Amanda Rock](#), About.com Guide

Promoting Safe and Stable Families is always looking out for the safety and well being of our families and felt these selected tips were best beneficial for your summer safety.

Upon Heading Out the Door

- Lather everyone up with sunscreen. For your preschooler, choose a product designed for children that has an SPF of at least 30 and make sure it is designed to protect against both UVA and UVB rays.
- Make sure everyone is wearing appropriate clothing -- light colored, nothing too heavy and OK for the activity that is planned (you don't want your daughter in a strappy sundress and dress sandals if she'll be running around at the playground).

In Your Yard

If you have a pool and it isn't surrounded by a fence that locks, consider investing in one immediately, fence should be four-sided with a gate that is self-closing and self-locking. The goal is to have a separate pool/pond/standing water area so a child can't walk out the door or into your yard and right into the pool.

- No child should be in the water unless there is an adult on hand, even if your child knows how to swim or is wearing a floatation device.
- Make sure any outdoor containers that you have -- sheds, storage bins, trash cans, even the trunk of your car -- are closed and locked. As kids run and play outside, it can be tempting to hide in one of these types of places, but they can get hot very quickly. In only seconds a child can be trapped inside, leading to a potential tragedy.

In the Car

- Most important: Never leave a child alone in the car. Aside from abduction dangers, in the summertime, car temperatures can soar very quickly -- even if the temperature isn't ridiculously hot. Even with the windows down, a car can get very warm, very fast. Best bet, take your child with you, even if you are going into a store just for a minute.

At the Playground/Home Swing Set

- Check out the equipment. Is everything anchored properly? Is the set in good shape? Look for sharp edges and open-ended hooks on swings. Make sure the surface that kids will be running (and possibly falling) on is cushioned -- common types include rubber mats, wood chips and sand. Touch everything. Is it too hot for bare skin to touch?

The Price of An Accident is Always High.
